

Make-up Assignment for Science Option 2

1. Find a book in the classroom that contains a scientific idea or discovery (for example electromagnetism, radioactivity, DNA structure, laws of genetic inheritance, octet rule of chemical bonding, etc)
2. Research the idea. Make sure to reference the book and page numbers where you found the information.
3. Explain the idea or discovery in a 150 word minimum essay. Be sure your work is typed in 12 pt. font and double spaced.
4. Submit the assignment before the Thanksgiving holiday begins. It may be emailed to me or given to me personally in class.
